Weight : 11 kg

Use anchors and screws (not
supplied) suitable for the nature
of the wall

Made in France

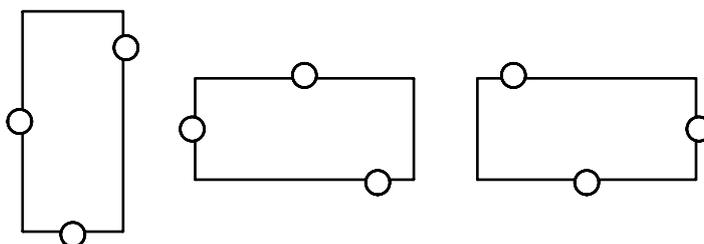

3D model available on moustache.fr

The Sphera collection of mirrors by Jean-Baptiste Fastrez is a contemporary interpretation of a technical device for creating mirror walls.

Very popular in the first half of the 20th century, the mirror bracket has since been reduced to its sole function, and today is no more than a kind of mirror attachment sold in the bathroom section of DIY shops.

A veritable system, Sphera revives the decorative tradition of this invisible technical element by giving it an unexpected sculptural dimension and unprecedented flexibility.

14 models to choose from an infinite range of possibilities.

The Sphera collection also includes :

Sphera Pegasus
Mirror

Sphera Orbit
Mirror

Sphera Triptych
Mirror

Follow the assembly instructions carefully.

Assembly instructions available
on moustache.fr on the product
page.

2 dispositions are possible
(horizontal and vertical). Refer to
the drilling plan for the desired
disposition.

x1

Etape 1 : Percer le mur

Se reporter au plan de perçage ci-après :

Step 1 : Drill the wall

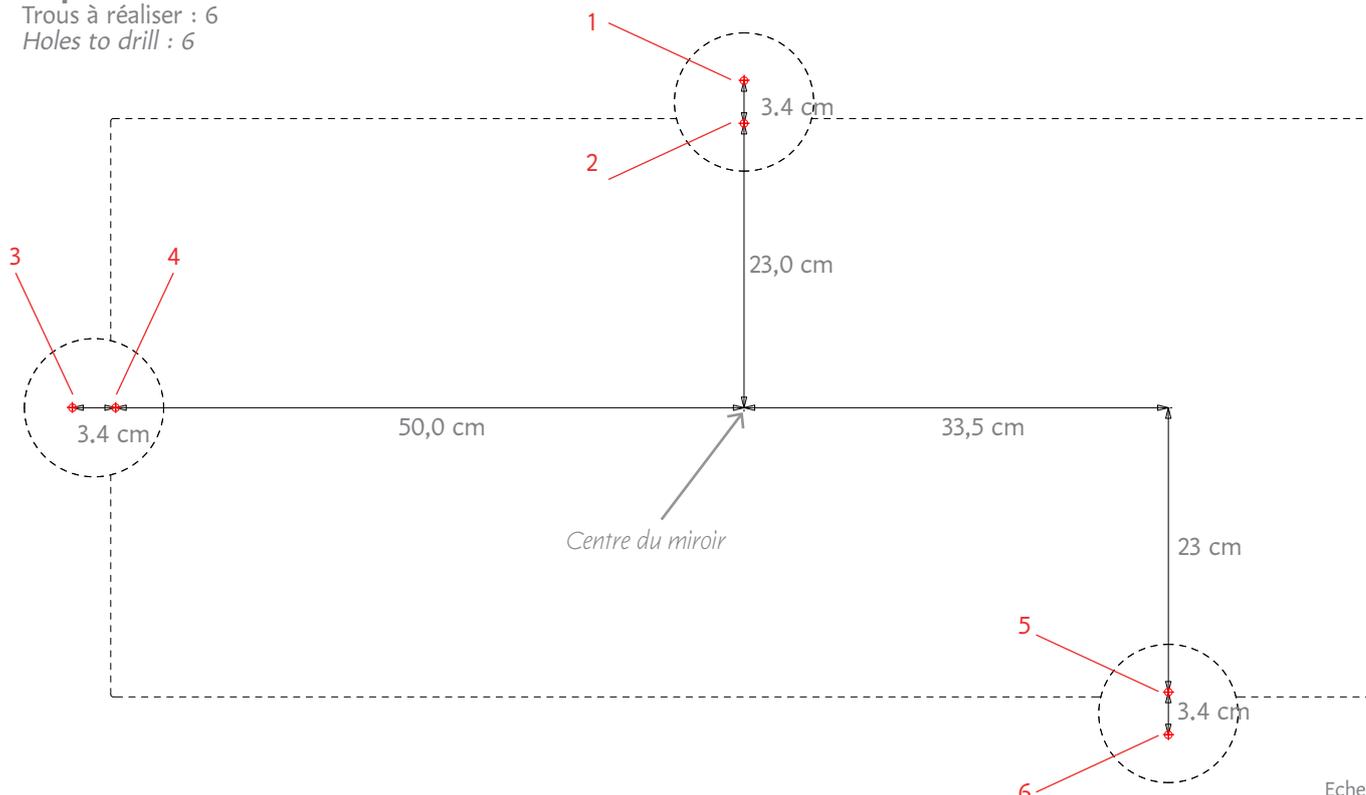

Report to the plan below :

Attention : La précision des perçages pour fixer les sphères au mur est primordiale pour ajuster et maintenir correctement le miroir.

Warning: The precision of the holes to fix the spheres on the wall is essential to adjust and hold the mirror correctly.

Disposition 1 :

Trous à réaliser : 6
Holes to drill : 6

Echelle 1:6
Scale 1:6

Installer un miroir Sphera Constellation (2/5)

Etape 2 : Fixer au mur les demi-sphères #1

Step 2 : Attach the half spheres #1 to the wall

Utiliser des **vis à tête plate (non fraisées)** adaptées à la nature du support (non fournies).

Use **flat-headed screws** corresponding to the nature of the support (not included).

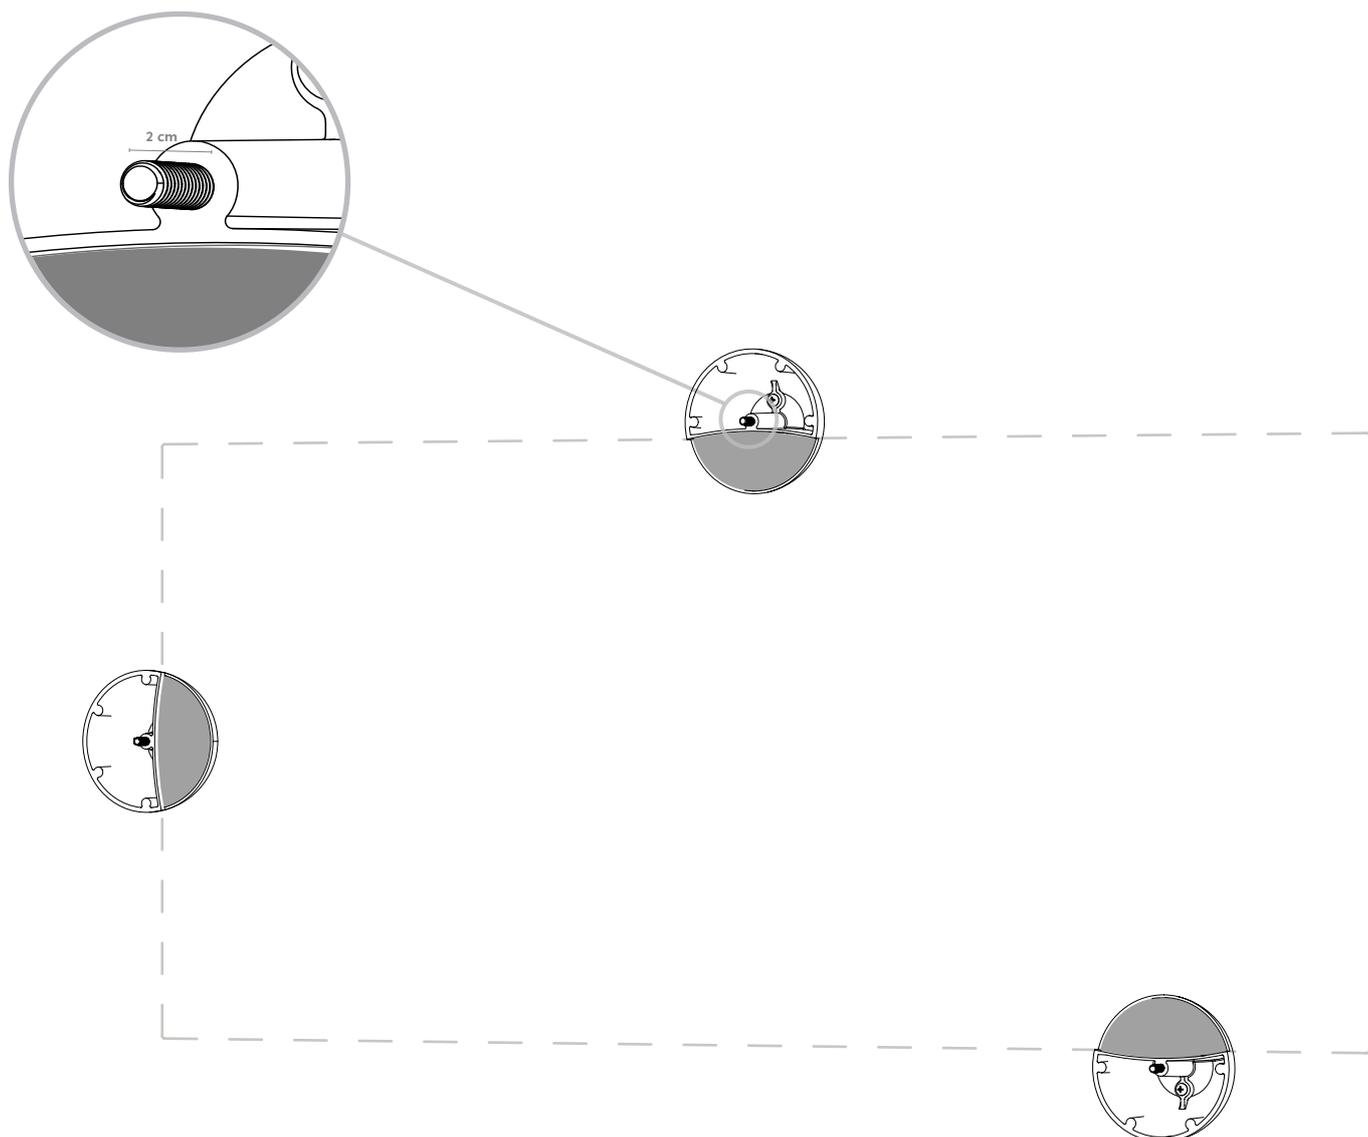

Installer un miroir Sphera Constellation (3/5)

Install a Sphera Constellation mirror (3/5)

Moustache 17 rue Beaurepaire, 75010 Paris
info@moustache.fr
www.moustache.fr

Etape 3 : Placer le feutre et les tiges filetées Step 3 : install the felt and the threaded rods

Coller les pièces de feutre sur la partie en retrait des demi-sphères #1. Visser les tiges filetées au centre de façon à ce que 2 cm environ dépassent des demi-sphères #1.
Stick the felt pieces on the recessed side of the half-spheres #1. Screw the threaded rods in the center until 2 cm remains outside of the half-spheres #1.

Installer un miroir Sphera Constellation (4/5)

Moustache 17 rue Beaurepaire, 75010 Paris
info@moustache.fr
www.moustache.fr

Etape 4 : Positionner le miroir

Step 4 : Place the mirror

Faire appel à une seconde personne pour placer et maintenir le miroir sur les zones en feutre des demi-sphères #1.
Let a second person place and hold the mirror on the half-spheres #1 felt pads.

Installer un miroir Sphera Constellation (5/5)

Moustache 17 rue Beaurepaire, 75010 Paris
info@moustache.fr
www.moustache.fr

Etape 5 : Fixer le miroir Step 5 : Attach the mirror

Visser et serrer (à la main seulement, sans outils) les demi-sphères #2 sur les tiges filetées présentes sur les demi-sphères #1.
Screw tight (only by hand, without any tools) the half-spheres #2 on the threaded rods of the half-spheres #1.

Attention : le miroir ne tient correctement en place que s'il est suffisamment maintenu par le serrage des demi-sphères #2.
Warning: the mirror only holds correctly in place if sufficiently tightened by the half-spheres #2.
