Use anchors and screws (not
supplied) suitable for the nature
of the wall

Made in France

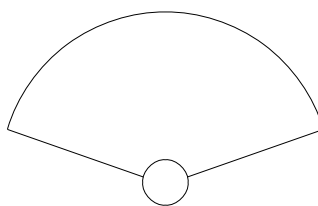

3D model available on moustache.fr

The Sphera collection of mirrors by Jean-Baptiste Fastrez is a contemporary interpretation of a technical device for creating mirror walls.

Very popular in the first half of the 20th century, the mirror bracket has since been reduced to its sole function, and today is no more than a kind of mirror attachment sold in the bathroom section of DIY shops.

A veritable system, Sphera revives the decorative tradition of this invisible technical element by giving it an unexpected sculptural dimension and unprecedented flexibility.

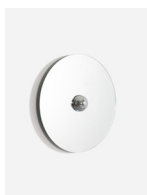

14 models to choose from an infinite range of possibilities.

The Sphera collection also includes :

Sphera Half
Moon Mirror

Sphera Disc
Mirror

Sphera Solstice
Mirror

Follow the assembly instructions carefully.

Etape 1 : Percer le mur

Se reporter au plan de perçages ci-après :

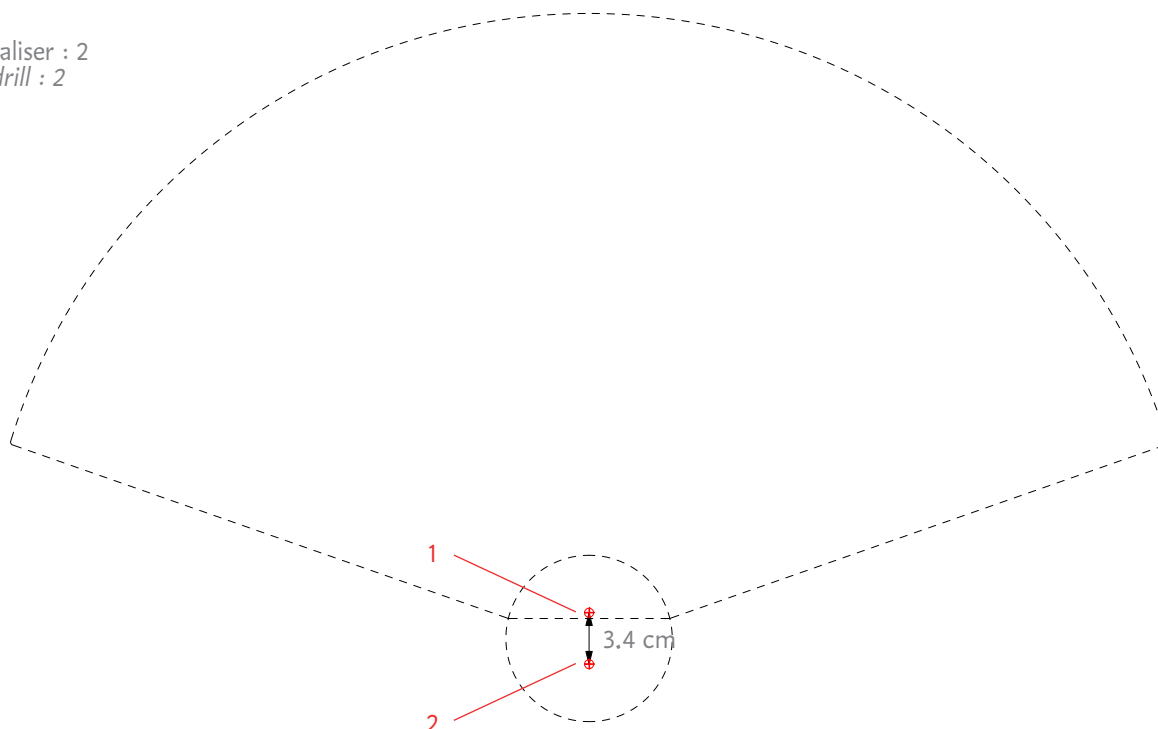

Step 1 : Drill the wall

Report to the plan below :

Attention : La précision des perçages pour fixer la sphère au mur est primordiale pour ajuster et maintenir correctement le miroir.

Warning: The precision of the holes to fix the sphere on the wall is essential to adjust and hold the mirror correctly.

Trous à réaliser : 2
Holes to drill : 2

Etape 2 : Fixer au mur la demi-sphère #1

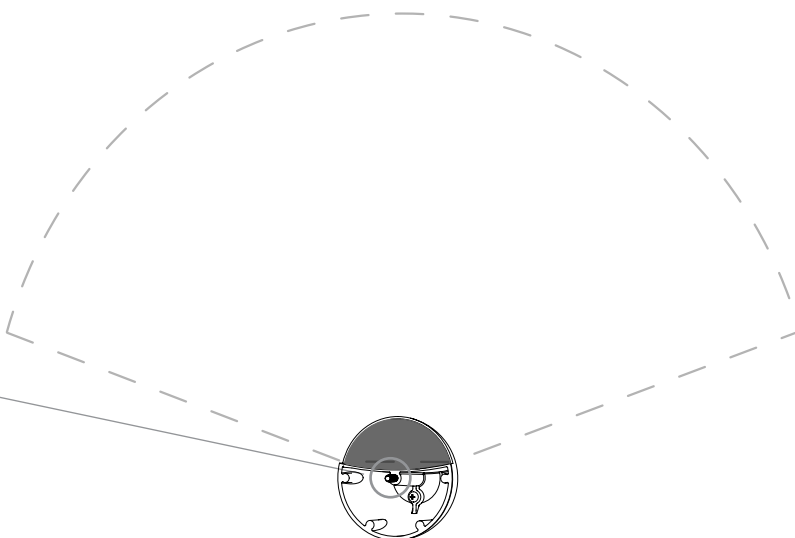

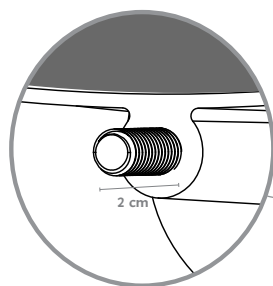

Step 2 : Attach the half sphere #1 to the wall

Utiliser des **vis à tête plate (non fraisées)** adaptées à la nature du support (non fournies).
Use **flat-headed screws** corresponding to the nature of the support (not included).

Etape 3 : Placer le feutre et la tige filetée

Step 3 : install the felt and the threaded rod

Coller la pièce de feutre sur la partie en retrait de la demi-sphère #1. Visser la tige filetée au centre de façon à ce que 2 cm environ dépassent de la demi-sphère #1.
Stick the felt piece on the recessed side of the half-sphere #1. Screw the threaded rod in the center until 2 cm remains outside of the half-sphere #1.

www.moustache.fr

Etape 4 : Positionner le miroir

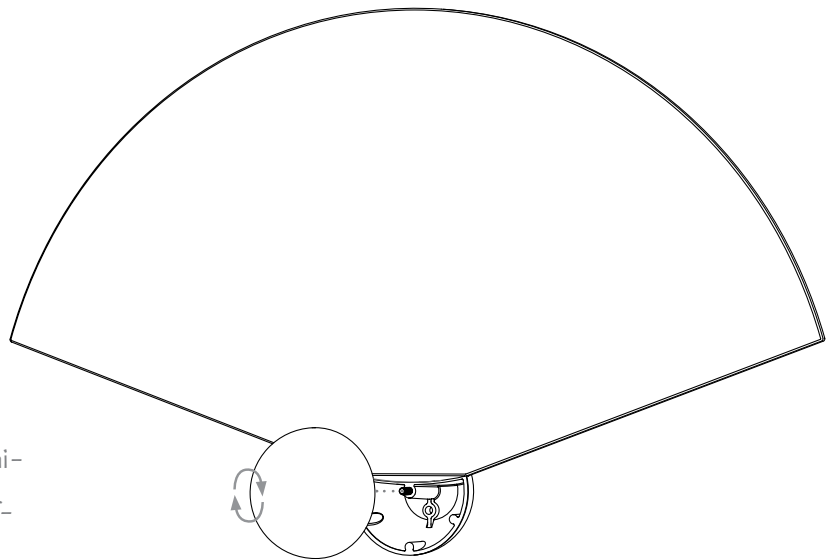

Step 4 : Place the mirror

Faire appel à une seconde personne pour placer et maintenir le miroir sur la zone en feutre de la demi-sphère #1.
Let a second person place and hold the mirror on the half-sphere #1 felt pad.

Etape 5 : Fixer le miroir

Step 5 : Attach the mirror

Visser et serrer (à la main seulement, sans outils) la demi-sphère #2 sur la tige filetée présente sur la demi-sphère #1.
Screw tight (only by hand, without any tools) the half-sphere #2 on the threaded rod of the half-sphere #1.

Attention : le miroir ne tient correctement en place que s'il est suffisamment maintenu par le serrage de la demi-sphère #2.
Warning: the mirror only holds correctly in place if tightened enough by the half-sphere #2.
