Made up of two tubular parts in metal embedded in each other, the Bold chair is an updated version of the tradition of a bended chair in tubular steel. Inflated with a thin polyurethane foam, the line drawn by the Bold successfully plays the role of foot, seat then back and gives it an amazing level of comfort. With a single stroke, in the manner of the Osvaldo Cavandoli Linea, and thickened similarly to the font which is made bold, the Bold chair succeeds in doing away with the seat and back. Covered with a removable textile coating, the Bold chair can change colour.

The Bold chair is part of the following collections:
The MoMA, Museum of Modern Art, New-York
Musée des Arts Décoratifs, Paris
Museum für Gestaltung, Zurich
F.N.A.C. fonds national d'art contemporain, Paris La Défense.
